10th Anniversary 2007-2017

Blackstar launched their first products in 2007 and this year will celebrate their 10th anniversary. For the four founders (all band mates) it has been an incredible journey. Having worked together for years at the highest levels of the amp designing industry, their dream was to create new and innovative guitar amplifiers and pedals that would be the ultimate tools for self-expression.

Now, with over 90 award-winning products launched to market and a family of the best guitarists in the world proud to be Blackstar users, the name Blackstar has become synonymous with tone and innovation.

As part of their 10th anniversary celebration Blackstar has some incredible new amps arriving throughout the year. Here's a taste of what 2017 has in store.

Limited Edition Leather Covered Artisan 30 Assembled in the UK

Blackstar's home town is Northampton in the heart of the UK. It is a town with a long history of leather work. As part of Blackstar's 10th anniversary we are proud to announce an extremely exclusive limited edition of the award-winning Artisan 30. Limited to just 10 pieces worldwide, this beautiful 2x12 handwired amplifier is assembled and then covered in leather in the UK by highly skilled traditional craftsmen. Each individual unit will be as unique as the leather hide it is covered in and will truly look as beautiful as it sounds.

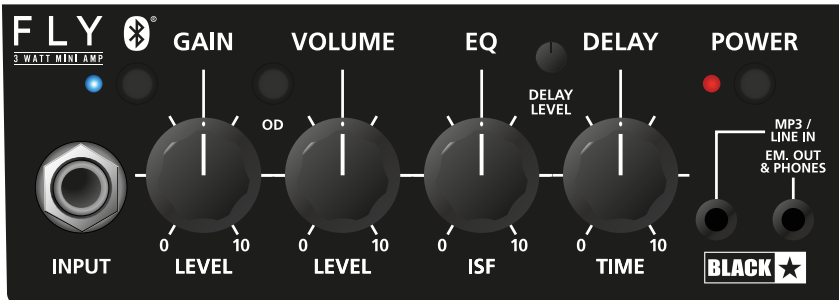

FLY Bluetooth®
3 WATT MINI AMP

The ultimate take-anywhere, battery-powered guitar amp just got better, with the addition of Bluetooth connectivity for wireless music playback.

The Fly 3 has won over guitarists around the world with its incredible guitar tones and high quality music playback. Now you can stream your music straight to the amp without a cable via Bluetooth. This deluxe model also features a new soft-touch finish.

- 3 Watts
- 2 Channels – Clean and Overdrive
- Bluetooth for jamming along or listening to music
- Patented ISF (Infinite Shape Feature)
- Digital 'tape' delay effect
- Emulated Line Out for 'silent' practice or recording
- 3" speaker producing true Blackstar tones
- High grade soft touch finish
- Battery or DC powered
- Revolutionary sonic performance

ID: CORE
PROGRAMMABLE AMPLIFIER

V2

NEXT LEVEL

STEREO 10 V2 | STEREO 20 V2 | STEREO 40 V2

Since their launch the ID: CORE 10, 20 and 40 models quickly established themselves as market leaders in the entry level guitar amp market. Amazing tone, Super Wide Stereo sound and class-leading features made them the best value amps available.

Thanks to the ongoing technical development of our UK based R&D team we are excited to announce the next generation: V2.

Building on the award-winning feature set and sonic performance the new V2 models also have:

- **6 enhanced voices:** clean to scream and all points in between – the new enhanced voices mean these are the best sounding guitar amps in their class.
- **Envelope filter effect:** one of the most popular effects introduced on ID: CORE BEAM this is completely new on V2.
- **Chorus/flange effect:** blending seamlessly from lush chorus through to swirling flange this new effect will create beautiful sonic textures.
- **FREE PreSonus Studio One Prime Blackstar Edition recording software:** one of the easiest to use professional quality DAWs (Digital Audio Workstation) available, now comes for free with every V2 amp.

LT-ECHO
10

Blackstar is pleased to announce the launch of two new compact, entry level combos: the LT-ECHO 10 and LT-ECHO 15. Blackstar's design philosophy has always been to deliver the ultimate playing experience for guitarists no matter what their ability or budget and these products raise the benchmark for a starter amplifier.

The LT-ECHO 10 and LT-ECHO 15 are two channel practice amps targeted at guitarists who are just starting out, but want great tone. They have two channels, Blackstar's patented ISF tone shaping control and uniquely in this part of the market, a built-in 'tape' delay effect. The inclusion of an MP3 input and Emulated/Headphone output make them perfect for practicing.

Their price points make them very accessible and the inclusion of ISF and a digital 'tape' delay means they will significantly outclass and outperform the competition.

The LT-ECHO's amazing tone, feel and features will inspire beginners to play and help generate the next generation of loyal Blackstar users!

- 10W ■ 2 Channels – Clean + OD ■ Patented ISF ■ Digital 'tape' delay FX ■ MP3/Line In for jamming along or listening to music ■ Emulated Line Out for silent practice or recording ■ 2 x 3" speakers producing true Blackstar tones

LT-ECHO
15

- 15W ■ 2 Channels – Clean + OD ■ Patented ISF ■ Digital 'tape' delay FX ■ MP3/Line In for jamming along or listening to music ■ Emulated Line Out for silent practice or recording ■ 2 x 3" speakers producing true Blackstar tones

Spector[®]

EST. 1976

NEW
EURO4 LE
1977

The Euro4 LE 1977 is a tribute to the first Spector bass to feature the now famous NS body style. This bass shares the construction as the original "Brooklyn bass" crafted by Stuart Spector 40 years ago, including solid American Walnut body wings, a three-piece Maple neck with Rosewood fingerboard, and the classic DiMarzio Model P pickup. Available in limited quantities throughout 2017 only!

NEW TIMBRE ACOUSTICS

Designed to deliver superior performance, Spector's new Timbre Series basses feature Solid Sitka Spruce tops and premium Fishman electronics, making them the perfect solution for bassists seeking a resonant and reliable acoustic instrument.

LÂG

GUITARS

Founded in the Occitania region of France, Lâg has been making quality guitars for over 25 years, under the guidance of master luthier Michel Lâg Chavarria. Lâg produces acoustic and electric guitars, which not only sound fantastic, but display elegantly pure, contemporary forms, thus representing the perfect synthesis of tradition and innovation. The carefully crafted design, sophisticated colors, and the new and daring combinations of materials reveal an uncommon obsession for details and a passion for aesthetic beauty. When it comes to creating a masterpiece, it's all about the details. For Lâg the same rule applies to making a great guitar.

Dean Markley

MADE IN THE U.S.A.

Established in 1972, Dean Markley USA is recognized as an innovator and leader in the world of musical instrument strings. Over the years, the company has expanded its product line to include pickups and accessories with a constant focus on making products that are easier to play, last longer and sound better, so musicians of all levels can improve their skills quicker and have more fun playing their chosen instrument. Celebrated by retailers for their sales performance and endorsed by an elite caliber of musicians, Dean Markley USA products are the source of your sound.

BLACKHAWK STRINGS

From the studio by day to the stage at night, let natural tone soar with Blackhawk, a new series of coated guitar strings from Dean Markley USA. Available for both electric and acoustic guitars, Blackhawk takes flight with tonal versatility, strength and quality for a wide style of playing.

BLUE STEEL CABLES

New for 2017, Dean Markley's Blue Steel Cables undergo a proprietary cryogenic freezing process which enhances the cable's tonal properties. The result is a smoother, more transparent tone that makes your rig feel and sound more alive. Available in a variety of lengths, and also as speaker cables, Blue Steel Cables are also extremely durable and carry a lifetime warranty.

SAKAE
THE ART OF SOUND CREATION

Sakae is a high-quality drum manufacturer located in Osaka Japan. In 2009, after 40 years of making drums for one of the world's leading drum companies, Sakae launched their original brand. Passionate about craftsmanship, the company's mission is to provide a lasting legacy of premium quality instruments for all musicians.

Almighty Series

Clarity, Warmth, & Tone.

Select North American Maple or Japanese Birch shells are carefully crafted for a minimal seam. Each shell features a sharp bearing edge for clear attack and great tone. Heavier lugs help to focus vibration and sound transmission to the shell edge. All toms achieve complete tone isolation thanks to our unique cradle mounting toms, floor tom leg mounts, and rubber padded bass drum spurs.

Limited Edition

Black & White Snares

Sakae's popular wood and metal snares now available for a limited time in black on black and white on white.
