

LÂG

GUITARS

20
Tramontane®

Founded in the Occitania region of France, Lâg has been making quality guitars for over 25 years, under the guidance of master luthier Michel Lâg Chavarria. Lâg produces acoustic and electric guitars, which not only sound fantastic, but display elegantly pure, contemporary forms, thus representing the perfect synthesis of tradition and innovation. The carefully crafted design, sophisticated colors, and the new and daring combinations of materials reveal an uncommon obsession for details and a passion for aesthetic beauty. When it comes to creating a masterpiece, it's all about the details. For Lâg the same rule applies to making a great guitar.
